PRAGATHI A B

B.Tech Computer Science & Technology | Dayananda Sagar University, Bangalore | 2028 Batch
abpragathi46@gmail.com | +91-8050604967 | github.com/abPragathi007 | LinkedIn

EDUCATION

Dayananda Sagar University, Bangalore *2024 – 2028 (Pursuing)*
B.Tech – Computer Science & Technology | CGPA: 8.88

SVET INDP PU College, Shivamogga *2024*
Class XII (State Board) | 95%

Government High School, Shivamogga *2022*
Class X (State Board) | 93.76%

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C — strong OOP fundamentals across Java & Python
CS Fundamentals: Data Structures & Algorithms (250+ problems), OOP, OS, DBMS, Complexity Analysis
Web Technologies: React.js, Node.js, HTML, CSS, REST APIs, Postman
Databases: SQL, MySQL, Relational DB concepts, Data Modelling
Cloud & DevOps: AWS (EC2, S3), Docker, CI/CD (GitHub Actions, Jenkins), Linux/Bash scripting
Open Source: Active GSSoC 2026 Contributor | Issue triage, PRs, distributed team collaboration

PROJECTS

Fully Automated CI/CD Pipeline — E-Commerce Application *Personal Project*
GitHub Actions, Docker, AWS EC2, S3, Nginx, Linux/Bash

- Designed and deployed a fully automated CI/CD pipeline — every GitHub push triggers build, Docker containerisation, and zero-downtime deployment to AWS EC2, mirroring enterprise-scale release workflows.
- Configured AWS S3 for static asset hosting and Nginx as reverse proxy; implemented Bash scripts for environment provisioning, health checks, and automated rollback — ensuring production reliability.
- Demonstrated end-to-end ownership of a cloud service, from code commit to live deployment with real-time monitoring and observability.

Open Source Contributor — GirlScript Summer of Code 2026 *2026 (Ongoing)*
Git, GitHub, distributed team collaboration across multiple repositories

- Contributing to multiple open-source projects under GSSoC 2026 — raising PRs, reviewing code, and collaborating with global maintainer communities in an Agile, distributed team environment.
- Triaging GitHub issues: analysing bug reports, clarifying scope, and coordinating assignments — improving project velocity and practising the full engineering lifecycle.
- Applying engineering best practices: version control discipline, documentation, peer code review, and iterative delivery.

Assistive Navigation System for Visually Impaired *HackVerse 2025 — Runner-Up*
Python, OpenCV, YOLO, OOP, Raspberry Pi, IoT, Text-to-Speech

- Built an AI-powered wearable using real-time YOLO object detection with OOP architecture — achieved 85%+ detection accuracy in indoor environments; Runner-Up among 40+ teams at HackVerse 2025.
- Engineered obstacle-detection pipeline with optimised inference latency on resource-constrained hardware — demonstrating problem-solving, performance tuning, and delivery under time pressure.

Swasthya 24/7 – MediATM (Startup in Progress) *Indian Patent No. 202641028045 A*
IoT, Raspberry Pi, Arduino, RFID, Cloud DB, n8n, Make.com, Solar Power

- Co-invented a solar-powered autonomous medicine dispensing kiosk integrating a cloud prescription DB, RFID Smart Health Cards, and AI-assisted voice guidance — patent published March 2026; now building into a startup.
- Integrated n8n and Make.com for backend orchestration — automating dispensing alerts, prescription sync, and audit logs across a distributed, low-connectivity environment, with 24/7 operation without continuous internet.

EXPERIENCE

Data Analytics Intern | NoviTech R&D Private Limited *Aug – Sep 2025 | Remote*
Python (Pandas, NumPy), SQL, Power BI, Machine Learning

- Analysed real-world datasets of 10,000+ rows using Python and SQL; produced 5 dashboard reports surfacing actionable business trends for client reporting.
- Practised an iterative, delivery-focused workflow across 12 core ML projects + 1 capstone, applying systematic data cleaning and feature engineering to improve pipeline quality.

ACHIEVEMENTS & CERTIFICATIONS

- Indian Patent Published — App. No. 202641028045 A; filed & published March 2026, Dayananda Sagar University.
- GSSoC 2026 Contributor — active open-source contributor under GirlScript Summer of Code 2026.
- Solved 250+ DSA problems across LeetCode (150+) and Talently (100+) — strong algorithmic problem-solving.

LEADERSHIP & EXTRACURRICULARS

- Vice-Chair — IEEE Student Society, Dayananda Sagar University; supporting chapter strategy, event planning, and member engagement.
- Founder (in progress) — Swasthya 24/7 MediATM; leading product development, IP strategy, and pilot deployment for rural healthcare access across underserved communities.
